

## Automatic Screw feeding Machines

**The use of screw feeders with hand-held screwdrivers simplifies the assembly method, because**

- they eliminate gripping, picking-up and positioning of screws by hand
- they correctly guide and position screws
- they combine part-alignment and screw-assembly into one operation
- they increase productivity with a low initial investment

**Ergonomic handling • Reliable and durable • Low noise level • Large feeding capacity**

**Several Models Available:**

**DEPRAG Model 1511-ES-2** with remote control  
4 new units available: **Sale Price: ~~\$4,500~~ \$2,800 each**

**DEPRAG SZG Model 1422-ED** Dual Feed without screwdriver  
1 new unit available: **Sale Price: ~~\$4,000~~ \$2,500**

**DEPRAG SZG Model 1422-ED** Dual Feed with screwdriver 345Z-403-777-412  
1 new unit available: **Sale Price: ~~\$6,200~~ \$4,200**

**DEPRAG SZG Model 1322**  
1 used unit available: **Sale Price: ~~\$2,000~~ \$1,000**
